

## DE VALERA REPUDIATES AGREEMENT WITH BRITAIN: SPLIT IN DAIL EIREANN CABINET

### Bandit Seizes Control Of Pen, Thrilling Escape

LITTLE ROCK, ARK., December 9.—(By the Associated Press)—Tom Slaughter, a killer and bank robber, wanted in California, Texas, Missouri, Kentucky and Pennsylvania, last night took charge of the penitentiary here, locked the doors, his family and guards in the cell, opened the gates and doors of the prison, offered freedom to all prisoners and after ruling the place five hours, escaped in an automobile at 2:30 o'clock this morning.

Slaughter, under sentence of death for killing of a trusty guard at the state prison farm at Tucker, Arkansas, where he was serving a life sentence for the killing of Deputy Sheriff Roy Brown, of Hot Springs, more than a year ago, took six convicts with him, four of whom were negroes under sentence of death. Six negroes under death sentence in connection with the riots at Elaine, Ark., in 1919, refused the opportunity to escape and remained in their cells.

Reports received in Little Rock early today said that Slaughter had engaged in a gun fight with officers at Benton, 25 miles southwest of there, but that no one was injured and that Slaughter and his party had turned northwest from there.

Four armed posers, one from the penitentiary, one from Benton and two from Hot Springs, and sheriffs in all parts of the state today were scouring the sections for the escaped convicts. An unconfirmed report was received here that the car had been sighted near Houston.

After the escape it developed that a revolver had been smuggled to Slaughter in the death cell where he had been closely guarded since his conviction at the bluff of the murder of the trusty guard. Feigning illness, Slaughter succeeded in getting a guard to open his cell door about 9:30 o'clock last night. He held up this guard and another standing nearby, took their pistols and forced them ahead of him to the stockade, where he overpowered the one guard on duty. Slaughter then opened the cells and offered all the prisoners liberty. Only six took advantage of the offer and the other two of the guards were locked up.

He took one guard to the office of the penitentiary of which he took possession, turning the guards on duty over to the men who escaped with him. Next he went to the hospital and forced a nurse to provide him with the documents just outside the walls occupied by Warden E. H. Dempsey and his family. The nurse awakened them and Slaughter forced them to accompany him to his death cell where they could not turn them and later, showing a peculiar trait of character, Slaughter then a pot of coffee with cream, sugar and cups.

Slaughter then threw the gates of the penitentiary wide open and leisurely set about outfitting himself and companions with civilian clothes from the commissary. What else was done until 2:30 o'clock is not known, for all except seven men were locked up. At 2:30, Warden Dempsey said he heard men move out from the penitentiary with the aid of prisoners above, went a hole through the floor at the direction, he escaped from the cell and spread the alarm.

Slaughter took an automobile belonging to Mrs. Dempsey and stripped the tires from a Ford motor belonging to Edward Dempsey, son of the warden.

Slaughter is 26 years old. His criminal record, as given to an Associated Press correspondent at the time of his confinement on Page Twenty-One.

### RIOTING SPREADS TO OTHER TOWNS

CHICAGO, December 9.—(By the Associated Press)—Extra precautions to prevent recurrence of disorders were taken by authorities in several of the large packing centers of the middle-west today, following the spread of rioting here by strike sympathizers to other towns. The first violence of the strike, here and at St. Paul, was followed by outbreaks yesterday in East St. Louis and Omaha.

Seven women were among 15 arrested in East St. Louis for participating in demonstrations and a fifteen months old baby was wounded when a volley of shots was fired into the house of a packing house employee in Omaha. Scores of extra police were placed in the trouble zone at Omaha.

A parade of striking plant employees was to be held in Kansas City this morning. Union headquarters announced that seven thousand strikers were expected to be in line.

The outbreak here, quelled Wednesday night, broke out afresh last night, after a comparatively quiet day, and police stated 350 persons were injured, including one man shot and a score seriously injured.

An injunction against the Meat Cutters' Union, was ordered here by Judge Dennis E. Sullivan on petition of twenty packers, including Swift & Co., and thirteen of the smaller plants. This injunction ordered that picketing cease, but, according to the authorities, it was disregarded by the strikers and strike sympathizers.

Moonshine liquor was said to be a big factor in the fight here. Twenty prohibition enforcement officers are working in the area about the stockyards, hunting for moonshine stills. In one house a large still was found and a barrel of liquor emptied into the gutter.

Suppers have made their appearance in the yards district here and added to the difficulty of controlling the mobs.

Morris & Co. issued a statement last night that production in that plant is at normal and they are filling all vacancies from their employment offices.

Dennis Lane, secretary of the Meat Cutters' Union, issued a statement at the same time, saying that the strike is "100 per cent effective" and that 50,000 men are out in the different packing centers.

After the escape it developed that a revolver had been smuggled to Slaughter in the death cell where he had been closely guarded since his conviction at the bluff of the murder of the trusty guard. Feigning illness, Slaughter succeeded in getting a guard to open his cell door about 9:30 o'clock last night. ### Tongs Eager For Peace

SACRAMENTO, CAL., December 9.—(By the Associated Press)—The general spirit of arms limitation found echo here today. The Bing Kong Tong, one of the strongest Chinese organizations, in a resolution asked all other Tongs to co-operate in maintaining peace. The resolution declared no more Tong wars should be tolerated in California.

### BANDIT CAPTURED

CINCINNATI, O., Dec. 9.—A man giving the name of William Rapp, of this city, entered the First National Bank here this forenoon, walked up to the bank's private watchman, Harry Huse, thrust a revolver against the policeman and said, "Hands up! Open that cage!" pointing to a compartment in which was stationed an assistant cashier. The watchman, instead of raising his hands, knocked the revolver from the robber's hands, then seized him. There was a short but fierce struggle that ended when one or two other employees of the bank reached the spot and assisted the watchman.

The police say that Rapp, after his arrest, confessed to having held a Central avenue grocery store yesterday, obtaining about \$25.

Rapp, according to the police, said he was out of work and desperate.

### U.S. AGENTS AND RUM RUNNERS WAR IN KENTUCKY

LOUISVILLE, KY., December 9.—(By the Associated Press)—Federal prohibition agents in Kentucky have just concluded one of the largest raids in the history of prohibition enforcement in the state.

Whiskey bandits likewise have just completed one of the most successful distillery raids ever made in Kentucky. Such is the result to date this week in the war between federal agents and rum runners.

Instead of a breathing spell today, following a busy week in three Kentucky counties, federal agents are off in search for the upward of a score of whiskey bandits who last night, in a spectacular raid, got away with 191 cases of bottled in bond and ten barrels of whiskey from the T. B. Ripley Distillery at Tyrone, Ky.

Early in the week 30 prohibition enforcement agents with Robert Blackburn, chief agent, at the head, invaded Nelson, Washington and Marion counties. When the agents came out late yesterday the raid had yielded seven prisoners, ten stills and 28 foundations were broken up, and 30,000 gallons of beer and 68 gallons of moonshine destroyed. Warrants for a number of other alleged law violators have been issued as a result of the raid. Moonshine, several raids in Louisville have netted small quantities of wet goods.

The bandits, in raiding the Ripley distillery captured four guards and three passively and after handcuffing them, put them in a vault in the distillery office while they loaded the whiskey into motor trucks and automobiles and drove off.

### Jap Cabinet To Act On Naval Cut

WASHINGTON, D. C., December 9.—(By the Associated Press)—The Japanese cabinet has been called to meet tomorrow, probably to take final action on the naval, radio question which has been submitted to Tokyo by Japan's arms conference delegation, it was learned today.

When the excitement had subsided Senator Watson announced that he decided the committee to call sixty-three witnesses whose names he presented, along with a great volume of letters.

### FRANCE TO ACCEPT QUADRUPLE AGREEMENT

PARIS, December 9.—(By the Associated Press)—France's acceptance of the quadruple agreement for the Pacific is considered certain in official circles, although the draft received from M. Viviani, of the French delegation, in Washington, today is regarded as a suggested outline and not a perfected plan.

Action here upon the agreement is expected shortly.

Official circles, as well as the press, have received with the greatest satisfaction the idea of France's participation in this accord.

Chairman Brandegee called for the sergeant at arms and Senator Watson sat down. Then turning to the Georgia senator, the chairman asked if he wanted the army officers present, including Walter E. Bethel, General Pershing's judge advocate general in France, to retire.

"Yes," said Senator Watson.

"Well, not out," said the chairman, and the officers retired.

Major Cohen had not been called as a witness and sat silent while Senator Watson was launching a verbal attack upon him. The senator told the committee that he had been insulted by the manner in which the officer had looked at him.

Sensor Shields, Democrat, Tennessee, presided at the opening of the session, but retired later as Mr. Brandegee arrived and took the chair. Some after there was an exchange between Mr. Brandegee and Mr. Watson regarding certain conversations relating to procedure and the presence of army officers while the Georgia senator was presenting his witnesses. The exchange became very heated and Senator Watson shouted:

"I am not afraid of you."

"Nor I of you," Chairman Brandegee replied, bawling the talk.

The chairman went on to say that there had been no disposition in the minds of the committee to be unfair to Mr. Watson and that it was not right for him to impugn the committee's motives.

"You ought to submit your evidence and let us decide," said the chairman.

"Then the senate can determine whether our findings are proper."

It was at this point that Senator Watson turned suddenly upon Major Cohen, reminding him that he was not in France and announcing his threat that for two months he would slap his jaws.

When the excitement had subsided Senator Watson announced that he decided the committee to call sixty-three witnesses whose names he presented, along with a great volume of letters.

### Citizens Flee Quakes; Camp In Fields

ROME, December 9.—(By the Associated Press)—Serious earthquake shocks have been reported throughout this week from the regions around the Lake of Bolsena, about sixty miles northwest of this city. The ground in several villages of that vicinity shows large fissures, and most of the inhabitants are camping in the fields. No deaths have been reported.

### PAYS PENALTY FOR MURDER OF HIS WIFE

RICHMOND, VA., December 9.—(By the Associated Press)—Dr. Arthur Amos Hadley, former army surgeon and ranchman, was put to death in the electric chair in the state penitentiary early today for the murder of his wife, Mrs. Sue Hadley, in November, 1918. Prison attendants declared Hadley went to his death calmly and stoically.

Dr. Hadley made no statement before his death further than to say he had made his peace with God and was prepared for the end. The execution closed one of the most sensational murder cases in the criminal history of Richmond, and recalled the case a few years ago of Henry Clay Beattie, Jr., to which it was similar in many respects.

Mrs. Hadley's body was found in the James river near Richmond on December 30, 1918, by a negro trapper and was identified by the woman's sister several weeks later. A search for Dr. Hadley was begun by local authorities which carried them through many states and parts of Canada and he finally was apprehended on a ranch in New Mexico. At the time of his arrest he was in disguise and under an assumed name. He was taken to Denver, Colorado, where, according to the Henrico county authorities, he made a written confession that he had killed his wife. This confession was used against him in his trial. In the confession he declared he also shot a mysterious "Dr. Griffin," a fellow surgeon in the army, but an investigation proved this to be unfounded, which Hadley finally admitted. From the time of his arrest last August until his death today, Dr. Hadley maintained a taciturn calmness and indifference.

### DEFENSE TESTIMONY TO START

COLUMBIA CITY, IND., Dec. 9.—The state was nearing completion of the presentation of its side of the case when hearings were resumed here today in the trial of Fred Decker, charged with complicity in the murder of Leroy Lovett. Indications were that the state would close its case today or tomorrow and testimony by witnesses for the defense is expected to be begun by the first of the week.

### Irish Press Scores De Valera For Repudiation Of Peace Agreement With Britain

DUBLIN, December 9.—(By the Associated Press)—The extent to which Dublin was surprised by Eamon De Valera's statement of last night in opposition to the terms of the Irish agreement can not easily be exaggerated. Although his sentiments were generally known, it was not believed he would openly differ at the last moment with the decisions of the Sinn Fein's accredited plenipotentiaries.

The protracted nature of yesterday's cabinet meeting which had the agreement in hand indicated to all observers that the question was not being settled easily, but those who looked for anything but a unanimous decision of the cabinet favoring the agreement were very few.

In political quarters here the general feeling today seemed to be that the Dail Eireann at its meeting next Wednesday would support Arthur Griffith and Michael Collins, who stood by their signatures of the agreement against all the arguments of the opposition, and it is stated that if plenipotentiaries were again needed in London the same men would go again.

DUBLIN, December 9.—(By the Associated Press)—Commenting on the statement of Eamon De Valera opposing the Irish agreement, the Irish independent today says:

"In connection with this development the outstanding fact is that on September 14, last, the Dail Eireann appointed five plenipotentiaries to represent Ireland at a conference with representatives of the British government to discuss the Anglo-Irish problem and if possible arrive at a settlement.

"With skill and ability these plenipotentiaries discharged the onerous mission entrusted to them. After long weeks of arduous labor and persistent effort, they secured terms and a settlement which we have no doubt were the best that in existing conditions could have been extracted.

"As plenipotentiaries they represented the Dail Eireann and the Irish nation and in the exercise of their power they signed a treaty of peace.

"We submit that in the circumstances the nation is in honor bound to uphold their action. If the position were reversed and if the head of the British government together with members of the British cabinet sought to repudiate the treaty the Irish people would unhesitatingly condemn their attitude.

"The Irish Times says, 'The country will read with deep dismay the statement Mr. De Valera issued last night after a prolonged meeting of the Dail Eireann. The loyalist minority is ready to put its faith in the good will of which Arthur Griffith has assured. Now De Valera steps in between Ireland and her hopes.'

"We shall mention only three facts," says the Times, "which neither Mr. De Valera nor anybody else can disprove.

"The first is that the Downing street settlement offers Ireland the greatest measure of freedom and the richest prospects of peace and progress that ever were or can be within her grasp. The second fact is that the rejection of them will doom Ireland to the renewal of hateful and ruinous warfare. The third fact is that if she rejects the treaty she will forfeit the sympathies of the whole world.

"Will Ireland now in an impulse of pride and folly defy the world and turn her back upon her last and greatest opportunity? God forbid!"

### GRIFFITH TO MOVE TREATY APPROVAL

DUBLIN, December 9.—(By the Associated Press)—The ratification of the treaty between Ireland and Great Britain will be moved at the Dail Eireann meeting next Wednesday by Arthur Griffith as chairman of the plenipotentiaries. It was announced today by President De Valera, in a statement issued by the Dail publicity department.

It would not be moved as a cabinet decision, added the statement, because the views of the delegates differed from those of certain members of the cabinet.

LONDON, December 9.—(By the Associated Press)—The repudiation by Eamon De Valera of the agreement reached between the British and Irish plenipotentiaries for the establishment of the Irish free state and the resultant split in the Dail Eireann cabinet, overshadowed all other developments in the Irish situation today.

The receipt of this news immediately raised two questions: "What will be the outcome of the division among the Irish leaders as affecting the decision of the Dail Eireann upon the agreement?"

"What effect will the situation in south Ireland have upon the British government's attitude and the opening of the imperial parliament for consideration of the agreement?"

The best opinion is that the split among the Dail leaders will not affect the plans for the opening of parliament.

The agreement was made between the British government and plenipotentiaries representing the Dail Eireann and it will be placed before the house of commons and the house of lords in the king's speech.

Then, after Prime Minister Lloyd George in the lower house and Lord Birkenhead in the upper chamber have explained and supported the agreement, a brief adjournment will be taken to await the vote of the Dail Eireann, which meets the same day—next Wednesday.

The sessions of the Dail are considered here as likely to be prolonged and lively, for it is composed of young men with strong views which they are in the habit of expressing with force.

In his statement last night declaring himself against the terms, Eamon De Valera, Republican leader, disclosed that his attitude was supported by two members of his cabinet, Austin Stack and Charles Burgess. The other cabinet members are said to have remained firm in favor of the treaty. This split, with the odds favoring ratification, is pointed to here as significant of the possible line-up in the Dail Eireann itself when the time for action arrives.

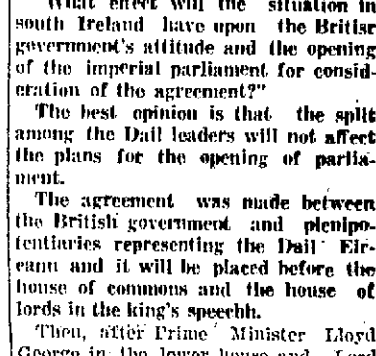

The outcome seems at this distance impossible to predict. Although there were reports before the signing of the treaty last summer that differences of opinion existed between Mr. De Valera and some of his chief supporters, such as Arthur Griffith, no such differences, if there were any, have ever been expressed in public and opinion on how the rank and file is considered for the most part, mere guess work.

Mr. De Valera, however, will have strong supporters for the rejection of the agreement and for the demand for an Irish republic from Austin Stack, Charles Burgess, Desmond Fitzgerald, Liam Mellows, Constance Markiewicz, and all the out-and-out Republicans, it is believed.

Government circles in London, however, remain convinced that Griffith, Michael Collins and their supporters (Continued on Page Eight)

## CLOSE PARK IF ROUSH IS TRADED; FANS SAY

Listen to this from the Cincinnati Post: "Most of the letters received by The Post protest against any trade of Eddy Roush. Two samples, typical of those received, follow: "Garry Herrmann and company are up to their old tricks of peddling off their good ball players to New York. It seems strange that the Cincinnati club always has trouble signing their good players, while other clubs like Detroit, Cleveland, St. Louis and Chicago seldom experience any in lining up Cobb, Speaker, Sisler, Hornsby and Eddy Collins. This makes the local club's wall of unreasonableness on the part of their players sound like the bunk. "If they trade off Eddy Roush tell them to throw in the franchise and key to the park. They won't need them

any more. "Another thing, please make a hotel about this proposed trade with Chicago, in which Louie Fousse is involved. Louie, without a doubt, is destined to be a great player, especially as a hitter, before many more years. Perhaps the management thinks so, too, and is merely taking this step so as to avoid the possibility of paying him a real salary in a few years. Yours in disgust. "FAN."

## Wizardry Of Zimbalist To Be Revealed Here Next Monday

As one of the finest musical attractions the city has ever had, Efram Zimbalist will appear at the Columbia Theatre in a concert Monday night. Zimbalist is truly a master of the most difficult of instruments, the violin. His concert will be given under the auspices of the Ladies' Musicale.

Ten years ago the violinist, Efram Zimbalist, came to America already a widely heralded genius although still in his teens. He was born in Koston, Russia and like Jascha Heifetz, his father was a violinist. The elder Zimbalist conducted the local opera house orchestra and it is recorded that little Efram frequently played with the musicians and on numerous occasions performed solos that put the older players to shame. It was of course easily seen at an early age that the boy had phenomenal talents and by the time he was nine or ten his name had become famous throughout the community.

Zimbalist graduated from the Petrograd conservatory at the age of fourteen, capturing first honors and a money prize of 1200 rubles—worth considerably more than they are at present Wall street quotations. Despite his youth he almost immediately stepped into fame throughout all the European countries; managers sought him and exploited his genius to a most remarkable degree. In 1911 he was brought to America and his debut in New York was a brilliant one. On that occasion he appeared as a soloist with the Philharmonic Society and the event is still talked of when auspicious American debuts are the subject of discussion. That first appearance will probably be traditional because it exercised one of the strongest influences in carrying the Russian violin school of playing forward into a popularity that still holds all over the country. In 1914 Zimbalist concertized in England and during that year he was married to the famous soprano Alma Gluck. Returning to America in 1915 for another tour, he has remained here ever since, an established figure in the country's musical life, one of the most admired and popular unsponsored celebrities. Recently, in September, 1920, he added no small interest to his career by composing a musical play that made an instant Broadway success. The score is characterized by a grace and refinement that predict a rich future in this field for the musicianly and very original artist.

Madame Yolanda Mero, the brilliant Hungarian pianist will also take part in the concert here.

Miss Clara Marsh, 1319 Sixth street is spending the week-end with friends in Wall's Station.

Those having tickets for the Zimbalist-Mero concert Monday evening at the Columbia theatre may have them reserved any time tomorrow at the Chamber of Commerce. Tickets for the concert may also be obtained at this time.

Julius Baesman will give another high school dance Saturday evening at the Baesman Dancing academy. Special prices will be offered students and their parents are also invited to attend. This is the second of a series of dances being given for the high school students, the first being a complimentary dance two weeks ago.

Mrs. George M. Appel of Gallia street has returned from a few days' visit in Cincinnati.

Mr. and Mrs. Roscoe Funderberg of Offshore street has as guests last evening the Misses Nell Henry, Esther Waller, Greenville George and Lawrence Verlier.

Mrs. E. E. Kinsale opened her home, 1753 Eleventh street to members of Mrs. C. N. Smith's Class of Trinity church, for their regular business session last night. Following the usual routine business matters, a social hour was enjoyed. Several splendid musical duets were given by E. E. Kinsale, violin and Miss Adolph Eymon piano.

Miss Lillian Jackson also rendered a beautiful solo.

The next meeting will be with Mrs. Ethel Naylor, Seventeenth and Offshore streets.

Dayfish and Sharks.

Several varieties of large dogfish and small sharks are found around the British coast. The fox-shark, or thresher, follows the shoals of herrings, pilchards and sprats, destroying great numbers and often doing much damage to nets. It often attains a length of 15 feet, including its long, narrow tail, which often exceeds in length the remainder of the body. The Greenland shark, which sometimes grows to 20 feet, occasionally strays from arctic waters to the latitudes of Great Britain. The top is a dogfish common on the coast of England and Ireland. It is of a slate-gray color and attains a length of six feet. Another dogfish is also common. It attains a length of from three to four feet.

## 6 Mile Gap Between Franklin Furnace And Haverhill To Be Paved In Spring

### Commissioners Get State Aid; To Eliminate Dangerous Crossing; Road Program Is Best Ever

County Commissioners J. H. Appel, W. O. Shively and Jacob Kuhner and County Engineer Arthur Harwood returned Thursday night from Columbus, where they had been in conference with State Director of Highways Hon. Leon C. Herrick in reference to state and federal aid for Scioto county in its highway building program for 1922. The conference was most satisfactory in its results. The local officials found Director Herrick sympathetic to the efforts being made by Scioto county for highway improvement, and disposed to furnish as much state aid as possible, with the funds at his disposal.

An agreement was reached by which the state and federal aid funds will be given to this county on a 50-50 basis for the completion of the six mile gap between Franklin Furnace and the Lawrence county line, and for the elimination of the dangerous underground crossing just north of Lucasville. The estimated cost of these two improvements is around \$290,000, and the county will receive at least \$145,000 state and federal aid money. The county's share of the money will be taken care of by a long time bond issue.

In addition, with the aid of state money from the inter-county road fund, it is planned to build an additional mile of brick paving on the South Webster road, carrying the hard surface road to the foot of Allegheny hill. This bill will be skirted, when additional paving is authorized, and surveys are now being made, but the route will not be established for some time.

Also 2.7 miles of gravel will be built on the Township road, carrying this improvement to the Lucasville bridge. The road that has been under construction, when completed, will be found to be a satisfactory one, of its type, and it is planned to carry the same construction on to the bridge.

It is expected to have plans and specifications all ready for the spring lettings which will begin in February so that the contracts can be completed during 1922. The engineer's department has been working on plans for several weeks and there will be no delay on that score.

In addition to the above there will be money available for regular county road repair and extension work, and altogether 1922 should see the most ambitious road program in the history of the county. The commissioners and engineer are to be congratulated upon the splendid success that attended their efforts to secure a generous slice of federal and state road money.

### Wrong Man Might Have Been Served

The Engineer Friday said: Unique and terse were the contents of a letter received yesterday by County Clerk George W. Tibbles from Owen B. Johnston, Highley, Ohio. The letter read: "On August 24, 1921, a lady using the name of Helen Johnson brought suit against me for divorce, furthermore stating we were married at Pensboro, W. Va., November 4, 1918. During the year 1918 I was serving my country in the army and I never conducted no marriage during 1918. Please write and tell me if a decree of divorce has been issued in above mentioned case. Hoping to hear from you soon and thanking you for your attention to my letter, and wishing you a merry Christmas and a happy New Year. I am very sincerely yours."

On August 21 last Attorney Charles S. Sparks filed a suit for Helen Johnson, seeking a divorce from Orin B. Johnson, and ordering service to be made on him in Ross county, Ohio. Attorney Sparks said that as the names are spelled differently the wrong man might have been served.

### Complete Plans For New Church

Architects Devoss and Donabson have completed plans for the new Christian Science church to be erected on Second street near Chillicothe. It is to be built of brick and stone and will have an ornate front, the feature of which will be a liberal use of art glass. The building is to seat 250 and will be an attractive house of worship.

### President Clippinger Coming To U. B. Church

Saturday evening, at the home of Miss Edna Strick on Sixth street, a reception will be given in his honor, to which the Alumni, ex-students and prospective students of Portsmouth and vicinity are invited.

On Sunday morning Dr. Clippinger will visit the United Brethren Sunday School and preach the sermon at the regular morning worship period. Throughout the state and nation Dr. Clippinger is a known authority on Child Psychology and Religious Education and the public generally is cordially invited to be present Sunday morning to hear this distinguished speaker. The Sunday School is at nine o'clock and the morning worship period at ten-thirty.

### Big Revival On At Kendall Avenue

Last evening Rev. L. N. Kayser preached to a much less than a full house. In a truly forceful manner he spoke on the miracle of Jesus and the man sick of the palsy. He showed that as the man was brought to Christ by the aid of four men, who considered it not too much trouble to uncover the roof, so, too, men are brought to Christ through the effort of many men praying. His appeal was to the effect that sin, whether it be great or small, like the man sick of the palsy, made him absolutely helpless, and that the only hope was to get to Him who can forgive sin. Mr. Kayser also showed that most of our troubles are traceable to sin.

Tonight he preaches on the subject, "Saved For Service." There is a bright song service for about 20 minutes, which we are sure you will enjoy. Come: there will be no collections taken. Would you be a real man? then accept Jesus Christ. Last evening we had the pleasure of leading others to Christ, and many have requested us to pray for them. Will you be one of them tonight?

### Meet Dec. 17

J. D. Bridges, secretary of the United Commercial Travelers stated Friday that the U. C. T. would meet on Saturday, December 17, instead of Saturday, December 24. All members are asked to govern themselves accordingly, as a large attendance is desired.

### GOES TO MILWAUKEE

CHICAGO, Dec. 9.—Pal Moore, who will fight Johnny Bull, lightweight champion, in Milwaukee next Thursday in a title bout, went to Milwaukee this morning to perform before the Wisconsin state boxing commission. With him were his trainer and a sparring partner. He expected to return tonight.

French air service plans more than 10,000 airplanes in 1922.

## Scouts Obtain High Honors

Who says the scouts in Portsmouth aren't booming?

If there is any doubt in your mind, look over the amount of scout work done by the Boy Scouts in November here.

About six weeks ago Scout Executive Gillman started a Scout Work contest, to end January 1, and the scouts responded nobly. All the phases of scout life were touched in the contest. Every second class question successfully passed counted 20 points; every first class question passed counted 40 points; every Merit Badge taken 60 points; Tenderfoot passed, Good Turns and Attendance also scored.

The scouts have jumped into the contest with true scout spirit. Five scouts, Angus Odell, Charles Boyd and Richard Turner, all of the Scitoville Troop No. 11, Donald Jordan of the First Presbyterian Troop No. 1, and Nelson Moore of the Nature Troop,

completed the long list of requirements and took the seventh and highest rank of scouting—that of Eagle Scout. Four others, Donald Dwyer of the Scitoville Troop, Edward Gillman of the Nature Troop, Sylvan Jackson of the Archery Bigelow Troop, and the Scout Executive, took the sixth rank, that of Life and Star Scout, all in the month of November—a record hard to equal in any city, big or little, in the whole United States.

When one realizes that in the first seven years scouting was in Portsmouth, only six scouts ever attained the rank of Eagle, and only eleven the rank of Life and Star, one realizes what that means.

During the month, three scouts, all of the Nature Troop, became First Class. Randolph Link, Winston La Neve and Howard Harris. Harris was the one hundredth scout ever to become First Class in Portsmouth.

Seven scouts also became Second Class during November. Arthur Arm-

brust of the First Presbyterian Troop, Philip Hicks and Clifford Dupuy of the Trinity Troop, Richard Rowley and S. Wells of the Scitoville Troop, and George Kant and Harold Thompson of the Nature Troop.

Following is the list, by troops, of all the scouts who have successfully passed scout tests during the month:

## Pastor To Remain Indefinitely

What proved to be one of the best congregational meetings of the year was held at the Granview Church of Christ, Robinson and Grandview, after the services Wednesday evening.

Interesting reports were made by the pastor and officers of the different departments for the year showing the

church out of debt but having a nice balance with which to start the new year.

Rev. O. H. Gast, the pastor, who is now in the midst of a stirring revival was given a vote of confidence and extended a call to remain with the church indefinitely.

## Poultry Show Opens Monday

With only three more days until the county's biggest poultry show opens, every member of the various committees who have charge of the exhibit is working hard to complete every little detail that will add to the success of the show. Nothing will be overlooked that will aid in making the first annual show of the Portsmouth Poultry and Pet Stock Association, the best ever held in this part of the state and one that will be hard to beat in any locality.

The whole town has been talking about the show, and there is much interest in the poultry event. This interest has been greatly increased since the offering of the loving cups by the Morning Sun and Daily Times.

Entries are coming in rapidly and the Association expects many more before the books close tomorrow. More than thirty varieties of chickens are represented in the two hundred entries, and these in charge were compelled to erect more coops than were originally put up to take care of all of the poultry. M. M. Burser will be the judge and he will begin his work Tuesday evening, continuing all week. The blue and red ribbons, awards will be made by the Chamber of Commerce.

The Association hopes to arouse interest in the raising of fine birds and desiring a large attendance, have made the admission prices as low as possible, ten and fifteen cents.

## Yolanda Mero, Famous Hungarian Pianist

Yolanda Mero, the famous Hungarian pianist who is to give a recital here next Monday evening makes one of the interesting colony of foreign born musicians who have adopted this country as their own. She came here a dozen years ago, a young girl fresh from her early triumphs in Austria, Hungary and Germany and Great Britain and within two or three years she found her fate in a well-known business man of New York and there she has since lived. Zimbalist found his wife in America, the charming Alma Gluck and so did Josef Hofmann. Now people are waiting to see what will happen to Jascha Heifetz who has settled definitely in America as his home. If some American girl does not get the attractive youth, he's even cleverer than he is credited with being. Madame Mero was recognized as one of the great pianists of the world.

when she first came to this country, although she was then a girl in her early twenties, but she had been playing in public since she was fourteen and her progress in her art had been altogether remarkable. As a girl she used to carry her audiences away with the tempestuous fire of her playing. She was a true daughter of Hungary and not for many years has there been a pianist, man or woman, who could so express the turbulence and the passion, the longing and the sentiment of Hungarian music as written for the piano by her great countryman Franz Liszt.

Of course she was not one of his pupils, for she is years too young to have studied with him, but her teacher Augustus Remele, was one of his most famous and devoted disciples and from her Madame Mero got the "Liszt tradition" better, in fact, than most of the pupils that he had in his later years. As everybody knows, there has been an enormous amount of talk about Liszt pupils. There have been dozens of them in the world whose studies with the great master when he died down to bare truth, were completed after he had listened to them play one piece. These were permitted for a short time to listen to others receive lessons, but the number of real sure-enough Liszt pupils is very small and all of them are now well beyond middle age.

Madame Mero's early training was broad and inclusive so that when she was ready to appear before the public even as a young girl, she had the traits of the serious and finished artist. She has not been content to rest on the laurels won at that time, or since. She is regarded by her friends and colleagues as one of the most constant and persistent students. This appears always in her performances. Brilliant as they are, they are always thoughtful, well designed, well planned and well composed. She has at her command a wide variety of style so that when she plays Bach, Beethoven, Schumann, Chopin, Liszt or Debussy and other of the moderns, the auditor feels that he is really listening to the voice of the composer not that the music is merely a vehicle for the display of the talents of the pianist. And that is the very highest form of interpretive art.

### More Bread—More Health—More Wealth

A learned historian once told us: "Bread, health and wealth are inseparable."

He had observed in his studies that nations rich in Bread always boasted healthy and prosperous people.

You don't have to be a historian or economist to understand the reason for this condition.

Bread, since the beginning of civilization, has been man's best food—building brain, bone and muscle.

Bread is the most nutritious of all foods, weight-for-weight, and the only economical food today.

A pound-and-a-half loaf of Bread will do the work of six pounds of beef or eight eggs.

A bountiful diet of Bread means a big saving on high-priced foods.

A bigger Bread appetite means a gain in health and purse. Keep your bakers busy. Eat—"Two Slices for One."

Portsmouth-baked Bread is Bread at its best—always wholesome, tempting and highly nutritious.

Eat it—

**Legion To Clear \$1,000 On Indoor Fair**  
Unofficial reports from the committee in charge of the American Legion indoor fair held last week indicate that the sum total realized will be over the \$1,000 mark.

A number of members selling tickets have not reported and some bills have not been paid, making it impossible for the committee to ascertain just how much was cleared. The Legion will check up on the fair at a meeting to be held a week from Monday.

The money realized will be used in maintaining club rooms as dues from members will not pay rent and upkeep of club rooms.

Attorney Luther Thompson has let it be known that he has an ambition to represent Scioto County in the state legislature at Columbus for the next two years and he is making plans to enter the race for the Republican nomination for representative in the primaries next August. Mr. Thompson is expected to formally announce his candidacy before the bells ring in the new year, and when the time comes lay off his coat and become busy, beating off all opposition and carrying out the nomination for himself. He is a veteran of the World War and has practiced law in this city since his discharge from the service three years ago, and during this time has made many friends who have encouraged his candidacy and declare that he would be a worthy successor to George Matthews, present incumbent, his friends say.

# Murder Mystery Remains Unsolved

The elements of mystery shrouding the death of the man whose unidentified body remains in the Lynn morgue on Second street, remain unsolved.

Efforts along this line persistently made by city and county officials have so far failed to result in the remotest clue being obtained.

Sheriff Ricker again visited the scene of the murder Thursday afternoon and went over every foot of ground there, but has no additional information that would throw any light on the identity of the man or his brutal slayers.

He is convinced that the deed was committed by men whom the dead man met in the West End. He shares the opinion with other officials that the slain man was lured from the West end to his tragic death in a lonely thicket on upper Dry Run. He is leaving no stone unturned that in any way would throw the faintest ray of hope in his efforts to fathom the mystery and apprehend the guilty persons. He visited the morgue today and made a careful examination of the dead man's personal effects.

"I am not going to quit because I have so far failed to obtain a clue," Sheriff Ricker told a Times man today.

He again spent the afternoon near the scene and is questioning many people about the mysterious elements veiling the crime.

Despite the fact that an unending

stream of people has poured into the Lynn morgue, the body remains unidentified. Many say they saw the man in the West End last week, but none can recall having heard the man's name. Officials are making an effort to learn the names of the two men who were with the slain man before the death trip was executed to the West Side.

## De Velara

(Continued from Page One)

will win the day, as it is felt that the moderates will follow this group. Arthur Griffith is not a fluent talker and little is expected by supporters of the agreement from his speeches in the Dail. Michael Collins on the other hand has the reputation of possessing a wonderful influence with an audience with his ability to push home an argument and his ready wit. Much is looked for in government quarters through his support of the pact, as he is pointed to as one of the heroes of the revolution, with great influence with the young men.

The Nationalists throughout the south and west of Ireland who were forced into comparative obscurity with the ascendancy of the Sinn Fein are counted upon here to use all their influence for the acceptance of the agreement.

The split in the Dail cabinet will not interfere in the release of the prison-

ers in the Irish internment camps and other places of confinement to whom amnesty was extended by the king's proclamation, according to the Irish office. Those from the Ballykinnor camp will be given their liberty today and others of the interned men will likewise be set free immediately. It is pointed out here that many of these men are classed as extremists but the cordial reception which the first of those released gave to the agreement, has caused hope in the official world that the released men for the most part will prove supporters of Collins and Griffith.

# Peace Between Ireland And England To Have Far Reaching Effects On The Arms Meeting

BY DAVID LAWRENCE

(Copyright, 1921, by Times Pub. Co.)

WASHINGTON, Dec. 9.—Peace between Ireland and England means far reaching effects not only upon the arms conference in session here but possibly upon the foreign policy of the United States in respect to the British dominions. The settlement means:

## Ireland May Join League

FIRST.—That Ireland is entitled to membership in the league of nations along with Canada, Australia, New Zealand, and the British dominions. The British now will have seven members in the league of nations assembly instead of six.

## Article Ten Recognized

SECOND.—Ireland's territorial integrity will be guaranteed as against external aggression by all the members of the league of nations under the famous Article Ten of the covenant. Originally the Irish viewed this article as a guarantee of British control over Ireland but in view of the fact that Ireland now assumes the constitutional status of Canada, the members of the league are obliged to recognize Ireland's territorial entity

as well as that of any other member.

## Foreign Policy Undefined

THIRD.—Ireland will unquestionably find herself as aggressive about foreign policy as Canada and Australia and South Africa have been. The peace treaty just signed between Ireland and England does not specify exactly what shall be the relations of the Irish free state with the other governments of the world. This is a delicate point and has never been defined in the case of any British dominion. In fact, Canada went further than any other British state had previously gone when Premier Meighen notified the British government at the last imperial conference at London that if the Anglo-Japanese alliance were renewed, he might submit it to the Canadian parliament for ratification or rejection. This was the first time a dominion premier essayed to place an issue of foreign policy before his parliament. It led indirectly to the calling of the Washington conference on far eastern questions.

## Canada Wants More Individuality

Ever since that occasion Canada has been striving for more individuality. Indeed, the general elections in Canada which were held this week resulted in a victory for the opposition to Premier Meighen. Some of the opposition speakers discussed Canadian participation in matters of foreign policy that were of direct concern to her and a controversy was waged in the press as to whether Sir Robert Borden, a member of the British delegation to the armament conference was a representative of Canada or of the Crown. The Washington government was freely criticized for not issuing a direct invitation to Canada, to which the United States officials have been replying informally that the Washington government dealt only with the London government at a latter's request. The movement for a Canadian commission at Washington has been squelched—at least official Washington understands—by the disavowal of the British foreign office to permit the foreign policy of any of its dominions to be handled separately and by the argument that Canadian officials can confer frequently with the British ambassador. Sir Auckland Geddes, who happens incidentally to have lived a long time in Canada and is familiar with the Canadian viewpoint.

## Canada Should Have Been Invited

On the other hand, General Smuts, the Premier of South Africa, issued not long ago a statement declaring that Canada should have received a direct invitation from the United States and should have the right to send an ambassador to any foreign conference at which matters affecting her are discussed. Indeed, the South African statesman was instrumental in drawing up the covenant of the league of nations which gave the six British dominions an equal voice in the assembly of the league along with sovereign states, even though in the council of the league all the British states are regarded as a unit and their votes cast as one.

## Complications Likely

The linking up of Canada to Ireland in the new peace treaty is regarded here as likely to produce complications for both countries. No rights would be granted for Canada presumably which England might consider it indiscreet to grant Ireland. On the other hand the pressure would be every British dominion for more of a voice in determining British external policy is growing and the unity of the British empire in the councils of the world will depend largely upon the skill of British statesmen in working out a common foreign policy. Frequent meetings such as the imperial conference of dominion governors last June are seen as an inevitable result with the prospect in the future of a union of British states under a federal control more or less analogous to the Washington government's powers over the sovereign states of the American union.

## Means Visit of Lloyd George

Peace between Ireland and England means, however, many other things for the United States in the immediate future. It means a slow but sure withdrawal of the Irish question from American politics. It means a certain visit by Prime Minister Lloyd George to the United States even if the issues of the armament conference do not in themselves demand his presence. The opportunity it might give him for a triumphal entry to this country following upon the levels of the Irish peace treaty is too good an occasion to miss as British spokesmen here have felt for some time that Lloyd George ought to visit the United States and Canada because of the value such a trip might have upon the cementing of good relations between English-speaking peoples.

## JURY DISAGREES

YOUNGSTOWN, O., Dec. 9.—The jury in the case of Rodney Hostler, on trial for first degree murder in connection with the killing of Isadore Wozniak, May 19, reported a disagreement today and was discharged. The jury has been out since yesterday afternoon. Corridor gossip said the jurors stood 5 to 4 for conviction.

## BREAKS HEIGHT RECORDS

DAYTON, December 9.—(By the Associated Press).—Lieutenant Leitch Wade, McLeod field, was declared to have broken the world's altitude record for a multi-motored plane, when he led a U. S. army Martin bomber to an altitude of 26,500 feet.

## SAFE ROBBERED

CINCINNATI, O., Dec. 9.—A third last night solved the combination on an ancient safe in the office here of the Tennessee-Nashville Life and Accident Insurance Company and stole \$1075. Then he unlocked the safe and the robbery was not discovered until the cashier opened up for business this morning.

Fine for plum pudding and other Christmas baking

## The Pudding Pan's Diary SATURDAY

AWOKE and found that the plum pudding I had baked last night had been served. At seven o'clock by the kitchen clock I went to the oven with some breakfast food to crisp. Then I was directed to my work and with the aid of a "Wear-Ever" pudding pan I made a delicious rice pudding for breakfast. The children love the kind I make. And then it became a question of whether I would make soup, or heat up a can of beans. The soup won.

Later in the afternoon I was given the delightful job of molding fruit salad. That being turned out onto a dish and placed in the ice box. I was sent to the oven to make a chicken pie. Tonight I'm in the refrigerator keeping some food cold. Because of a cover, I pouched with a little less than one-half the amount of heat ordinarily used. You see I heat up evenly all over, hold the heat a long time and, therefore, I save a lot of fuel.

After breakfast I made a delicious rice pudding for breakfast. The children love the kind I make. And then it became a question of whether I would make soup, or heat up a can of beans. The soup won.

## Boy Emperor's Mother Is Suicide

Chinese Princess Kills Herself As Result of Quarrel Over Lad's Marriage

BY WM. PHILIP SIDDS

Written Expressly for NEA Service

WASHINGTON—One more amazing chapter must be added to the international intrigue to put the deposed Boy Emperor back on the throne of China.

Despite powerful efforts to keep the

tragedy a secret, it is now known that Princess Chun, the lad's mother, did not die a natural death as stated, but committed suicide after a scene between herself and the empress dowager.

Through a friend in Peking I have just come into possession of the strange details.

The story throws into vivid relief the morbid atmosphere out of which certain British, Japanese and Chinese plotters would lift their candidate to the dragon throne.

## Plotting For Year

For more than a year these international schemers have been promoting a match between the boy emperor Hsuan Tung, now 17, and the young daughter of Hsu Shih-chang, president of China.

They believe the marriage of the Manchian "emperor" and the Chinese girl would please the southern Chinese and thus remove the objections to a restoration.

The empress dowager, according to my informant, is an ardent supporter of this match. The boy emperor's mother, the Princess Chun, was just as ardently against it. She preferred her great niece-daughter of her nephew and the boy's first cousin—instead.

The boy emperor himself, it is said, does not want to marry either one, his choice being his own mother's young sister in short his aunt.

So with this new love triangle in full swing, the Arabian Nights atmosphere of the imperial court became surcharged with personal spites and jealousies.

## Lad Backs Thought

The "Lad of Ten Thousand Years," as the lad is called, sided with his mother and was willing to take his first cousin to wed instead of either his aunt or the daughter of President Hsu.

The empress dowager was furious, it is said, and called the boy's mother on the carpet. The young "emperor" ab-

jected and took his mother's part.

The row continued for three days. Prince Chun, the lad's father, failed in a faint during one of the scenes.

On Oct. 1 the Princess Chun took opium diet.

## Another Version

Another version has it that the court physician one day failed to show the empress dowager the respect she felt was her due, whereupon she called the boy emperor down. Prince and Princess Chun took their son's part and the quarrel followed.

Whichever story is true, the Princess Chun today lies in a suicide's grave; the empress dowager is slowly recovering from illness; Prince Chun is broken over the loss of his wife and the boy emperor is in mourning for his mother.

Still the international plotting goes on.

## Dead Sea and Mediterranean

The old question of the origin of the extreme saltiness of the Dead Sea has received a new answer. It has been shown, after demonstrating that the soil and rocks can have furnished but a fraction of the quantity of salt that has collected in the Dead Sea basin, that the most important source of supply of this salt is atmospheric transportation by winds from a Mediterranean. This view, it is thought, is confirmed by the fact that the ratio of chlorine to bromine in the Dead Sea is the same as in the Mediterranean.—Washington Star.

## Lines to Be Remembered

In the course of their development all creatures have become fitted to their surroundings. Man is adapted to the world he lives in. It is proverbially given him satisfaction. Even when they bring frustration and sorrow, the facts may be faced with the billow of soul, and with courage, through the spiritual resources at his command.—Exchange.

MISS FRANCES NEWMAN,  
Chicago, Ill.

"Only a medicine of truly wonderful merit could have done what Tanlac did for me and there is nothing half good enough for me to say about it," said Miss Frances Newman, 2629 Hirsch St., Chicago.

"I don't think anybody ever suffered any more from indigestion than I did and for over a year I was in wretched health. I had smothering spells and my heart palpitated so violently I thought I had heart trouble, but I know now it was all caused from my stomach."

"Since taking Tanlac I feel and look like a different person. I have a splendid appetite and my digestion is just perfect. I sleep eight or nine hours every night and get up in the morning feeling fresh and happy. My friends tell me I'm always smiling now and I certainly ought to be, for I'm enjoying life again."

### To Repair Pumper; Contract Awarded

The Board of Control, in session Friday, awarded the contract for the repair of the big fire engine, damaged in a collision on Galia street while making a run to a fire about two years ago, to The Seagraves company, on its bid of \$5,492.00, but the bids for the repair of the small pumper were ordered held up and will be disposed of at a future meeting.

It is planned by city officials to establish a fire station at Seatonville and use the big pumper when required in furnishing fire protection to the citizens of that territory.

### YEAST VITAMINES IN VIM-O-GEN

Scientifically Cultured  
Unequaled for Putting on Firm Well-Rounded Flesh and Renewing Vitality

Scientists are discovering new and startling facts about Yeast and vitamins every day. Added to the diet they bring about changes in the nutritive processes that are nothing short of miraculous in the effects produced by increasing the weight, building strength and vigor and in restoring to normal many vital processes.

The vitamins are not medicinal in effect—they are not drugs. They act to modify the nutritive processes so that the system receives the utmost good from the food you eat. Then naturally follows increased vitality, and improvement in most of the important life processes.

The quickest proof that the vitamins are bringing you benefit is shown in increased weight—firm well-rounded flesh, but the benefits are in reality deeper and more vital than this.

VIM-O-GEN, the Improved Yeast Vitamine Tablets, are prepared from scientifically cultured Yeast and contain not only the three vitamins which science says the body must have to grow and be healthy but also iron and other important blood and nerve-building ingredients.

Be sure you get the genuine VIM-O-GEN Yeast Vitamine Tablets. Ask your druggist to open a bottle. Notice the pleasant odor, which identifies the genuine VIM-O-GEN, Improved Yeast Tablets, rich in the three vitamins that science tells us are so necessary to health, strength and energy. Absolutely guaranteed. Your money back if not satisfied.

## CONFESSIONS OF A MOVIE STAR

### CHAPTER XLVI—I FIND THAT COLERIDGE WAS "FRAMED"

GINETTE wasn't as bad as her reputation. I decided. Neither was Rose. I took their gossip straight to Motherdear and ended my recital with:

"Now, honest! Did Coleridge ever talk to you like that?"

"Motherdear, is a genuine grande dame, a patrician in looks as well as in mind. She knows how to wear clothes and all that. Any man with sense ought to admire her."

"She threw herself back in her chair and laughed too much for the warm evening. Finally she said with a gleam of fun in her eyes:

"It was what the boys call a 'frame-up,' little daughter!"

"Who was framed? Coleridge?"

"Exactly so. I own up. He did say to me pretty much what he said to you up in the woods. He confided in me all that ancient nonsense about lack of harmony between him and his wife. And he informed me—even me—that I

am 'so different!' I gave him a piece of my mind. His little wife nearly died when the last baby arrived."

"When you came home and told me Coleridge had been crying to you for sympathy, I was indignant. I talked to the girls at the studio. We decided to spoil one man's affinity hunting. We knew he'd start off on his sentimental orbit with any good looking woman. The girls agreed to cure him and sent him back to his wife. And they did. I hope the lesson takes."

"Motherdear, was that all you hoped from the frame-up?"

"She merely raised her eyebrows inquiringly."

"Was there, also a lesson for me? You wanted to show me the kind of whining a certain type of married man indulges in? I'll never listen again if a married man begins to sulk about his wife."

"Dear child, you didn't need the lesson. You knew from the beginning!"

"I did know, Motherdear, I guess

all girls have the right instincts—to trust if they wanted to. That's why I ran away from Coleridge. I suppose."

"And I think so, too. This frame-up wasn't for you, dear, except by way of illustration. Rose suggested that she and Ginette tell their chapters of the story to you."

"Rose and Ginette have been awfully decent to me lately, Motherdear, but there was a time when Rose talked to me too much—about—McMasters."

"Doesn't she any more?"

"Never!"

Motherdear took a deep breath. I should say she was registering relief and relaxation.

"So our serious conversation ended. And so, once more, I came to the sad knowledge about certain phases of love. Once more I told myself that I didn't care to experiment with it. I'd live my romances in my plays. I'd keep them out of my life."

Dear Miss Dolly—I am going to tell you the sad story of my young life and

see if you can help me. I am 14 years of age and live about fifteen miles from Portsmouth. My mother and when I was two years of age and my father gave me to a couple and I never would have known that they were not my real parents if some one had not told me. When I was nine years of age my foster mother died and my supposed father married a woman who had four children and she made him get rid of me. Now I stay just where I can for my board and clothes. My father knew I was left homeless but he never offered to take me or provide for me. I have always kept track of him and I know he has always worked and could help keep me, but he never sends me a Christmas present. I wonder when he sits down on Christmas with his little step daughter, will he think of his own homeless daughter who has no kind parents to smile at her or wish her a merry Christmas. I am not getting the education I should have because I am not going to school regularly. Dolly do you think I could make my father take care of me?

If you wish you could send me your name and address as I may be able to place you in some good home.

## SUNDAY SCHOOL LESSON

THE GENTLENESS OF TRUE FRIENDSHIP  
LESSON TEXT: "PHILEM ON." REV. HUGH EVANS

"Let friendship creep gently to a lesson for the benefit of the church; if it rushes to it, it may soon of all time. The Epistle is literally a tale of three cities. Three men are concerned in this interplay of three cities: Paul is the New, Ruth is the Old; There is first the scene in Ephesus of love told with all the simplicity of where the Apostle Paul as a street in a pastoral dream. It is a flash-light preacher is bound by Philemon, a sketch of the love of ancestors of wealthy merchant of Colossae. This Philemon is a gem of literature and restful; his story but when the thoughtful reader. It is an object leaves for home he craves with him not

only the investment of his money, but the investment of his life. He has invested the latter in the religion that Paul preached.

Years pass. The scene is changed. The street preacher is now a prisoner at Rome. In his own hired house, bound to a guard by a heavy chain, he is receiving those who anxiously come to him of the "Good Tidings." A rugged man with a broad look on his face enters, sits well back, comes again and again and each time comes closer until he has poured the story of his theft and flight into the ears of Paul. He is converted to Christ as the wealthy merchant had been at Ephesus.

Then comes the strange, thrilling fact that his master, for he was a slave, was Philemon the merchant of Colossae. God works in mysterious ways. Here is Rome, in this prison, a man who has the ends of the world together with his gospel. Paul determines to write to Philemon and tell him that this slave is now a Christian and that he is coming back to me received not merely as a slave but also as a "brother in Christ."

Paul reminds Philemon of his love for him of his generosity which faith had inspired; and of the right that he had to command him to do anything he wished. "But," he adds, "all requests will be made on a basis of love. Onesimus, once a slave, is being sent back as a slave and as a brother to be received as such. 'He is my son in the gospel,' continued Paul, 'and I want you to receive him as you would me. If he has done you any wrong or owes you anything put that on my account with you. But I remind you that in the balancing of accounts you will have to give me yourself entirely to

meet your debt to me."

With a great burst of assurance and faith he closes: "I am sure you will go beyond my request and I am desirous to visit you in your home. Get a bed ready for I feel certain that prayer will be answered and I will be freed from prison and will come into your home."

And we believe Philemon did

what he was asked and that Paul actually came. And the last scene closes the act at Colossae, when Onesimus and Onesimus are received there.

In the christening of girl babies there has sprung up a vogue for old-fashioned English names.

## If Stomach is Out of Order —"Diapepsin"

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pape's Diapepsin and realize not only immediate, but lasting relief. This harmless antacid helps digest anything you eat and overcomes a sour, gassy or out-of-order stomach in five minutes. If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion. Get from your druggist a sixty-cent case of Pape's Diapepsin. There will be no sour risings, no belching of indigested food mixed with acid, no gas or heartburn, no fullness or heavy feeling in the stomach, no nausea, headache or intestinal griping. Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this food fermenting and begin eating what you want without fear of discomfort or indigestion.—Advertisement.

## Morning Show For Children At Eastland

A special morning show for school children will be given at the Eastland Theatre tomorrow morning at 9:30. The feature picture to be shown will be "The Fox," the big western production starring Harry Carey which has created such a furore here the last two days. In addition to this picture the Eastland management have arranged to give away free to the 20 lucky children attending, free tickets for any 10 shows coming to the Eastland. The price for this morning show will be only 10 cents, including war tax. "The Fox" is a picture that children will especially enjoy and with the other good features which will be on the program, the children are assured of a royal good time. Send your kiddies to this matinee. Don't forget one show only, starting at 9:30 a. m. Doors open at 9 o'clock.

HARRY CAREY in "The Fox" A UNIVERSAL PICTURE

Harry Carey in "The Fox" Popular at the Eastland. Universal Star. Promoted by Bigger Pictures. Seen in a Super Western.

Harry Carey has won his spurs. The Ace of the Saddle has been made a Universal-dowel star and in "The Fox" his initial super-feature, he proved to hundreds who attended the Eastland Theatre last night that he is worthy of the honor.

To the public, the trade name "Universal-dowel" means that the picture is suited to the screen with the best traditions of Universal City behind it. In the motion picture industry it means that it is a picture of which Carl Laemmle, the trail-blazer of the silent drama, is proud.

"The Fox" stacks up, all in all, as one of the best dramas of the open country ever filmed and it is particularly pleasing to those who regard Harry Carey as the foremost Western actor on the screen.

"The Fox" as it was written by Harry Carey and adapted to the screen by Lucien Hubbard, scenario editor at Universal City, concerns a wretched tramp who is thrown from a freight train to play a most important part in the destiny of a small desert town. He uncovers the crooked doings of a grasping banker, leads regular United States cavalry into action to break up a gang of desperadoes, and wins a wife after the fastest whirl of action which he has ever experienced in his long career as an exponent of the range-riding hero.

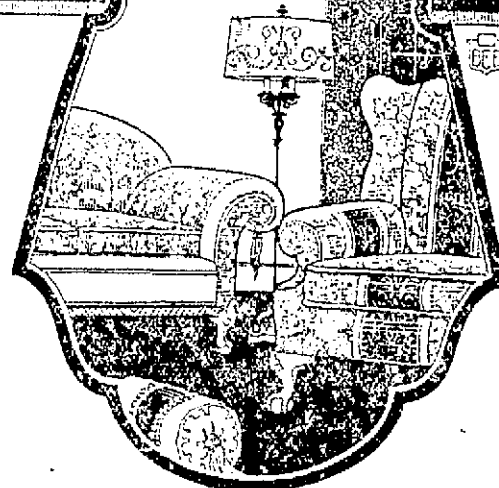

Demonstrates Dance  
The new dance that is spreading over the country, was demonstrated by Miss Young at the Winter Garden last night and was received by the many local dancers with enthusiasm. It is called the "Tango" and resembles the dance given in the cabaret scene in the "Four Horsemen of the Apocalypse." It is something entirely different from anything ever seen in local dance floors and many of the younger people have already taken it up.

Yo-Ho! I'm Coming To Andersons' Tomorrow

Meet Me There at  
Ten O'clock

Santa Claus will make his annual appearance at Andersons' Saturday morning at 10 o'clock. He will arrive as usual at Third and Chillicothe streets in his big automobile loaded with toys and games and all things rare for children and he wants several thousand children to greet him. Santa Claus is the same jolly old fellow with the smile that won't come off and anxious to see crowds of little folks.

He will stop his machine on the Third Street side of our store and, after mingling with the children in the street for a while, will climb up the fire escape, from which point of vantage he will shower innumerable presents upon the crowd of urchins that has gathered below.

This annual visit of Santa Claus is enjoyed alike by young and old. It makes no difference if you are 90 years of age, if your heart is young, you cannot help but be pleased at the spectacle of Santa Claus' annual visit.

## IMPORTANT ISSUES AT ARMS PARLEY NEAR SETTLEMENT

WASHINGTON, D. C., December 9. (By the Associated Press)—So encouraging a situation has developed in the arms negotiations that some of the delegates believe that an open session of the conference will be called early next week to announce agreement on the 5-5-3 naval ratio and the quadruple arrangement proposed as a sub for the Anglo-Japanese alliance.

There are intimations that the negotiations are so close to a settlement that some conference officials had expected an open session today or tomorrow. While the exact nature of the forthcoming announcement can not be forecast, it seems probable that in addition to the naval ratio and the four power plan it may embody some formal pronouncement of the principles on which the conference expects to limit fortifications and naval bases in the Pacific.

Definite decision on the naval ratio question is now believed to hinge on a satisfactory solution of the problem of naval bases and island fortifications. The matter of land armaments on American and British possessions lying near the Japanese empire has long been linked in the minds of the Japanese with possibility of reducing the Japanese navy.

The Japanese delegation, while "entirely to the United States, intimated that Japan desired to have a fleet strong enough to cope with any fleet that any nation could send to the waters of the Far East. This is explained as meaning that Japan does not expect and does not desire a navy as large as the United States and Great Britain, but as indicating that naval bases along the littoral of Asia should not be so strengthened as to afford protection for a hostile fleet already superior in numbers to the Japanese.

The conversations over the four power treaty again were at a standstill today pending receipt of different replies from Tokyo and Paris, but there was a general feeling of confidence that the delay would not be long. A partial statement of Tokyo's position has been received by the Japanese delegates here and although its full import is not yet apparent, there is a feeling in Japanese circles that the answer will be favorable.

Unofficial advice both from the Japanese and French capitals seem to forecast acceptance of the four power plan, provided such other questions as the naval ratio and the fortifications are solved satisfactorily. Tokio has not yet sent a final expression of the ratio question, but one is expected very soon.

Meanwhile, the Far Eastern negotiations also are taking such form that an agreement involving all the points of major importance before the conference is not a remote possibility.

# CHRISTMAS SEAL TAG DAY SATURDAY

Tomorrow and every Saturday until Christmas will be Christmas Seal tag days. Tag days are held now and then for various worthy causes and purposes. There will be a Tag Day for Christmas seals.

The fifty-five business men in this county looking after the annual sale of Christmas seals which play an important part in the fight against tuberculosis, have arranged to have about twenty girls working in teams of two each scattered through the business section every Saturday to sell seals. There will be 50 seals in an envelope and when an envelope containing 50 is sold for 50 cents the purchaser will be tagged with a real Christmas Seal button. It is necessary to purchase fifty cents worth of seals to obtain a button.

The sale of Christmas seals is meeting with a really response everywhere. More persons are selling them this year and as a result more persons are buying them than ever before. From the school pupils comes reports of big sales, several schools having several hundred dollars worth of stamps after disposing of the first \$100 worth sent to the school. Each school is endeavoring to outdo the other for there is a \$10 prize for the school selling the most seals. A second prize of \$5 will also be given to the schools. The prizes are causing the school pupils to hustle this year and the sales so far have been about double those of last year at this time.

The sale of Seal tags only until Christmas and by that time the men charge hope to have the total sales somewhere near the \$10,000 mark. Help them reach the goal by buying some seals.

No other work in this country shows more plainly the enormous possibilities of small agencies that are active, the great things that come from the useful little penny seal. Many people help and the pennies build and educate and continue to supply a stream of funds for further building and help. Two years ago the Red Cross withdrew from the seal sale and the work is now directed by the National Tuberculosis Association and allied organizations. In this state the work is handled by the Ohio Public Health Association. Each penny will help protect public health by an educational warfare against disease. The great results from the penny seals indicate what greater results may be secured.

if more seals are sold. Important as are the results achieved, they are but a promise of the more important work the future holds if the work is carried on. If you buy you are helping. The Tuberculosis Christmas Seal makes its own appeal.

## COURT HOUSE

**Youth Ordered To Reform School**  
Theodore Roberts, 12, High street youth, was adjudged a delinquent at his hearing in juvenile court Friday in connection with breaking into the Ohio Pure Food and Candy company establishment on Robinson avenue recently and stealing candy. Judge Gilliland ordered the lad committed to the Lancaster Industrial school, but gave his two companions, Howard Dodds, 13, and George Barker, 12, who participated in the robbery, another chance by reason of this being their first offense. The Dodds and Barker youths were made wards of the court and required to pay for a broken window and the candy which they took. The Roberts boy has been in trouble before and the court turned a deaf ear to appeals to give him one more chance.

**Case Continued**  
Preston Badgett, New Boston, was

before the probate court Friday to answer to a charge of failing to send his two children to school. After hearing the defendant's story and on his promise to cause the children's attendance in school regularly in the future, Judge Gilliland continued the case and released the father from custody. The complaint was filed by Attendance Officer J. H. Wohler.

**Fathers of Truants In Court**  
Pres. Murphy, Vernon township farmer was taxed the costs on his conviction in probate court Friday, failing to cause the attendance of his sixteen-year-old son in school and Judge Gilliland continued the case on the promise of the parent to see that the son is kept in school.

The court also scored William Cogan, Haverhill farmer, who appeared to meet a similar complaint. Cogan admitted guilt but in mitigation of the offense explained he had been sick and claimed he kept his son at home in order to have the lad care for him. Cogan was allowed to go with a warning and on his promise to start the lad in school and keep him there.

The complaints were filed by A. B. Fenton, county attendance officer.

## Adams Seeks Divorce

Divorce and custody of minor children is sought in an action instituted in Common Pleas court Friday by John W. Adams, N. & W. conductor, who lives at the Y. M. C. A. at East Portsmouth, against Kellie Adams, 916 Third street, whom he married January 25, 1903.

In his petition the plaintiff says that on May 8, 1918, the defendant filed a petition in court praying for alimony and enjoining him from returning to his home. He then declares through attorneys Miller, Skelton and Johnson that this action was taken by the wife without any just cause or grounds whatsoever and claims that the suit when it came to a hearing was decided in his favor. He further says that the finding of the court was that the wife was not the proper person to have the custody and control of their minor children and entered an order

that they be placed in the Children's Home. Adams claims there has been a separation since the alimony suit was filed and asks for a decree on the ground of willful absence.

**Charges Neglect and Cruelty**  
Clara Horton, 1900 Summit street, charges neglect and cruelty in her suit for divorce and alimony, with custody of their infant child, brought in Common Pleas court Friday against Albert Horton, steelworker, whom she married Jan. 5, 1921.

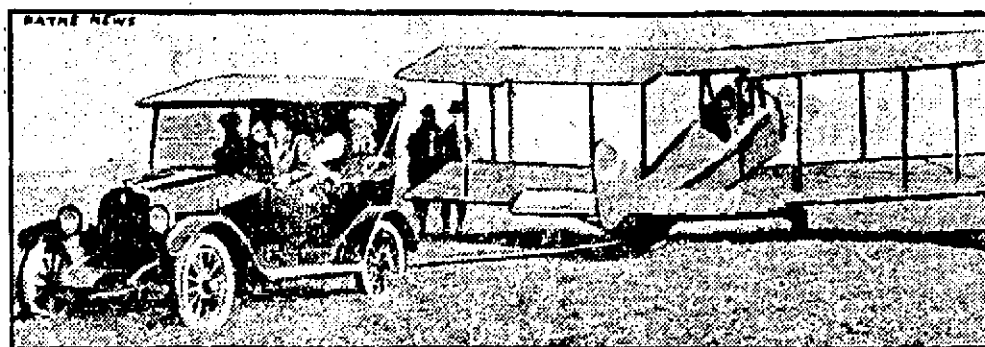

In her bill of complaint filed through attorneys B. F. Kinkle and Walter D. Dickey, the plaintiff says Horton has treated her with hatred, derision and abuse, declaring that he has cursed her and sought in every way to make her life unhappy and miserable, besides, she asserts, he has repeatedly told her that he hated her and wished that she and their baby would die so he would be free. Furthermore, the wife claims that Horton has failed to provide for her property and complains that his treatment has caused her great suffering of body and mind until she is unable to live with him longer, she says. Judge Gilliland allowed a temporary injunction to issue tying up the defendant's wages and restraining him from going about her home at the Summit street address or molesting her in any manner until the case can be heard on its merits.

**Suits To Be Dismissed**  
A settlement having been effected by the parties to three damage suits of George Henry and David Palmer against the Chesapeake and Ohio Northern Railway company, the cases will soon be dismissed, it was announced Friday.

The cases which have been pending since 1916 were brought for alleged damages to property owned by the plaintiffs in the construction of the railroad and bridge at Scottdale.

**Marriage License**  
John Wesley Broyles, 21, railroad man, city, and Florence N. Butts, 19, cigar factory worker, city.

You may soon see airships putting loads too heavy for ordinary automobiles as a result of this test of land and air motors at Long Beach, Cal. The two hitched together for a tug-of-war. The airplane won.

**The Great Policy.**  
Justice is itself the great standing policy of civil society; and any contempt departure from it, under any circumstances, lies under the suspicion of being no policy at all.—Edmund Burke.

**Where Squareness Counts.**  
A country is not made great by the number of square miles it contains, but by the number of square people it contains.—Dayton News.

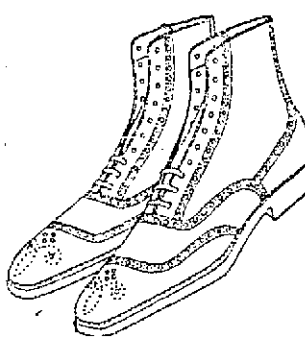

**An Atchison Phenomenon**  
The most extraordinary person in Atchison is an eighteen-year-old girl who doesn't think she knows more than her mother.—Atchison Globe.

## Hock To Get A Real Chance

Eddie Hock, local outfielder, and who has been drafted by the Cincinnati Reds according to an announcement made Friday. If Hock shows anything he will get a regular berth as Crousy Neale will not be carried by Manager Moran.

**Removed Home**  
Mrs. James Kelley was removed to her home, 1713 Sixth street, from Mercy hospital today.

**Ink Stains in Linen.**  
To remove ink stains in linen, apply chlorinated lime to the stain and wet with vinegar. Do not allow the solution to stand long on the fabric or it will be injured. After the stain disappears wash the goods.

## SELF-RELIANCE GOES BANKRUPT

Thin Blood Saps Energy Gude's Pepto-Mangan Rebuilds The Blood

Wrestling with a weakened condition of the blood is a desperate struggle. Thin, watery blood deprives the body of energy and causes a play-acted feeling not unlike utter exhaustion. A man with weak blood has not the full use of his powers. He lacks decision, and vacillates until he loses self-confidence.

Some men, and women too, go fasting for months, sorely realizing that they need Gude's Pepto-Mangan, the blood-builder. But when they have taken it for a while, what a difference there is in the feelings! The old-time vigor and the red-blooded hue of good health return. The new rich blood gets to work, building, fortifying, lifting the spirit up to its normal standard. Physicians have prescribed Gude's Pepto-Mangan for years as a blood-builder. Druggists sell it in liquid and tablet form. Look for the name "Gude's Pepto-Mangan" on the package. Advertisement.

## Waiting On Attitude Of Japanese Government On Important Issues

WASHINGTON, D. C., December 8. (By the Associated Press)—The rapidly moving arms conference had reached a point of comparative pause today, with the Far Eastern committee in adjournment until tomorrow and the next important step in the negotiations four power treaty apparently waiting on a definite statement of the attitude of the Japanese government. Meanwhile, the Japanese and Chinese delegations were scheduled to "hold another session today of their separate conference on the Shantung question, discussion of the restoration to China of the public properties in the Japanese leasedhold there having been continued yesterday without final disposition.

As a major feature in the prospective agreements the question of limitation of fortifications and naval bases in the Pacific islands has been brought into prominence for the first time today. Although the subject has not advanced to the stage of formal exchanges, the American delegates have given assurances to the Japanese that it would be considered as a natural corollary of the naval reduction plan and indications point to an ultimate agreement on the principle of abandoning further development of island defenses.

Press reports that the Japanese government had decided to accept the four power treaty plan for preserving peace in the Pacific, conditional on an agreement on the naval ratio and further application of the American "four points" to China, were accepted here as further encouraging interdependence of the negotiations of those problems and as supporting the opinion that they would be advanced simultaneously to the point of a general understanding on all. Separate treaties and agreements then would remain to be drawn up to cover them.

Definite word was awaited from the French government today, as well as from Tokyo, as to acceptance of the principle of the proposed four power treaty. An early favorable response from France was looked for in reply to the recommendation of its delegates that their government accept a place in the new arrangement. The British government is understood to have already accepted the proposal in principle and the American delegates have proceeded to the point of indicating a willingness to discuss details.

## He Tells At Fisher & Streich's Drug Store How Pepgen Relieved Him Of Badly Run Down Condition

L. P. Blackner of Wabash St.,  
Says, "I Sleep Sounder and  
Have More Energy Since  
Taking New Tonic"

"I was in a badly run down condition of health when I started to take Pepgen. I felt tired and worn out most of the time even when my daily tasks were light. Frequently I had spells of indigestion in which I would blot so badly that I could scarcely get my breath.

"My kidneys, too, did not act properly. I had pains across my back. Sometimes these pains were so severe that I could not sleep. The pains were especially severe in the morning, just before I got out of bed.

"Pepgen caused a wonderful change in my condition. I feel like a new man. I can eat whatever I desire and I do not suffer with indigestion afterwards. I sleep as soundly as a tired school boy. I am glad to give this testimonial because I know Pepgen is a splendid tonic."—J. B. Blackner, 442 E. Wabash street, Portsmouth.

Pepgen costs but little and it does wonders in the way of correcting faults of the stomach, kidneys and liver. Every person who is troubled in this way should try it. Don't wait another day. Time is precious. Why suffer with sick headaches, constipation, nervousness, sleeplessness, sallow complexion, pains in the back and other symptoms that are caused by stomach, kidney and liver ills. Pepgen has relieved thousands why not you?

Get Pepgen at Fisher & Streich's drug store.

## Suffered With Bilious Attacks; Food Disagreed; He Takes Pepgen; Now Feels Best In All His Life

Another example of the relief that Pepgen is affording Portsmouth people is evidenced in the experience of George Schmidt, a shoe-maker in the employ of the Excelsior Shoe Co. Mr. Schmidt lives at 1571, Waller street, this city.

In a recent conversation at Fisher & Streich's drug store his wife stated the following: "My husband has only been taking Pepgen for about two weeks and already he feels as good as he ever did in all his life. Before taking Pepgen my husband suffered with bilious attacks that made him very sick. These affected his stomach and it seemed like everything he ate disagreed with him. After every meal he complained of indigestion. This caused his general health to decline.

"Pepgen proved to be exactly what he needed. It relieved his ailments in a short time. My husband says he never intends to be without a bottle of Pepgen in the house as it is the only medicine that ever helped him."

The production of Pepgen now is unbroken. Stop and think. Of course it pays to advertise—pays tremendously when the product advertised has no competition and makes good to the last word. But do you think advertising alone would create such a monster demand for any article as Pepgen has.

Don't you agree that merit so extraordinary as to stamp Pepgen as absolutely unique in its power to make good is necessary to make such a record?

Pepgen is a tissue builder, appetizer, and invigorant. It reaches those ills of the stomach, liver and kidneys, and curbs the effects of the mucous membrane that are the common maladies of the day; the strength-sapping, lethargy-creating ailments that get your nerve, whether you be merchant or artisan, employer or employee, man or woman.

Pepgen is purely vegetable. The ingredients are brought from many parts of the world. In the Pepgen laboratory, these are compounded with absolute accuracy, so as to obtain the high standard of efficiency that is maintained in the tonic.

Weak, run down men and women who need better digestion, more strength and a toning up of the nervous system, will find Pepgen an ideal tonic.

## Released; Sent Back Home

2 Louis Bonzo, Scotch Trail young man who was arrested here a week ago and taken to Cincinnati to meet a charge of non-support made in Municipal court there by his wife, and sentenced to three months in the county jail by Judge Fox, was released from custody Friday and sent to his home in this city for medical treatment, the court having suspended the sentence upon being advised of Bonzo's poor physical condition.

Prosecutor George W. Sheppard interested himself in Bonzo's case on learning of the poor condition of his health and it was largely through his efforts that the sentence was suspended. He was advised Friday in a communication received from The Ohio Humane Society, Cincinnati, of Bonzo's release and requesting him to refer the young man to the proper local department for medical treatment on his arrival here.

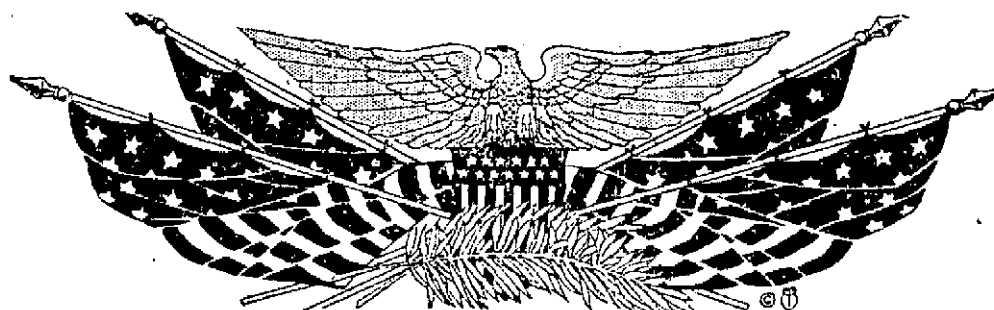

John Noble, small son of Mr. and Mrs. J. L. Adams of Offene street, who has been ill, is improving.

## Herb Rickey Accidentally Shot

Herbert Rickey, purveyor at the Excelsior shoe factory suffered a painful flesh wound on his right hand Thursday afternoon when a .38 caliber revolver was accidentally discharged. # BIG TRACTOR TOPPLES OVER ON MARTIN

Charles Martin, 29, married, son-in-law of W. G. Cole of the West Side, is in serious condition in a local hospital, the result of an accident at Cole's Basin, near the Tremper farm on the West Side, about nine o'clock last night when a tractor engine fell on Martin.

He was using it in an attempt to pull Jake Pratt's large touring car out of a ditch at the side of the road when it turned over backwards and caught Martin.

From nine o'clock until after midnight the injured man remained at the Cole home while efforts were made to get physicians to the house. About one o'clock he was taken to a local hospital for treatment, and a careful examination showed a serious fracture of the pelvis and a fracture of the right leg. He is also suffering with paralysis on one side, but the attending physicians have failed to find any pressure on the spine which would cause such condition. Several X-rays taken of the back do not show any injury to the spine which would cause paralysis.

Mr. Martin's mind seems clear and he is not suffering the usual pain one would expect from such dangerous injuries. There is no injury about the shoulders or head.

The Pratt car went off the road into a ditch near the Cole home. A garage man from Portsmouth was called,

but he could not pull the heavy touring car to the paved road. Mr. Martin, who lives at the Cole home, was then asked to help and he pressed his Sumner tractor into service. The tractor was started up the bank to the road, but when the engine started the rear wheels did not turn, which caused the front of the tractor to raise and turn over.

The driver was caught under the heavy machine and was held there for about five minutes, the garage man and George Shawson of the Cole home rolling the heavy tractor off Martin. The injured man was carried to the Cole home, where he was made comfortable until the arrival of physicians.

Joint installation of officers was held by Order of Railway Conductors No. 351 and their Ladies Auxiliary No. 202 last night in Brady's hall. Nearly 200 were present. Mrs. Anna Lynch, C. A. O. of Lima, installed the officers of No. 351. She appointed the following officers to act during the installation: Mrs. Hiram Hagler, Grand Secretary, Mrs. J. C. Moore, Grand Senior Sister, and Mrs. Robert Callahan as Grand Adversarial. The following officers for No. 202 were installed:

President, Mrs. H. E. Reed; Vice-President, Mrs. Oliver Lane; Secretary and Treasurer, Mrs. J. C. Moore; Senior Sister, Mrs. L. W. Crookshanks; Junior Sister, Dave Bush; Guard, Mrs. A. H. Pinson; Insurance Secretary, Mrs. Mary Conrad; Missionary, Mrs. Stella Bonine; Delegate, Mrs. H. E. Reed; Alternate Delegate, Mrs. Oliver Lane.

The Link officers of 202 are: B. B. Mrs. B. S. Fugitt; clarity, Mrs. Clara Smith; Truth, Mrs. T. Frasier; Friendship, Mrs. Ethel Hasselmann. Some time was spent in remarks from these present, including a nice talk from Sister Lynch and piano music furnished by Mrs. John Mauer. All present voted very beautiful work done by those taking part and much mention was made of the graceful services of Sister Callahan as Grand Marshal. At the close of the ceremony of the auxiliary officers, the Grand officer, Sister Lynch, was presented with a basket of beautiful yellow chrysanthemums and Sister Reed, president of the local division, with a beautiful basket of lavender chrysanthemums, which were received in the same spirit as they were presented, that of love.

The officers of No. 351 were installed by retiring Chief H. E. Reed, with the assistance of Everett Wilkinson as Grand Marshal. The 1922 officers are: Chief Conductor, L. W. Crookshanks; Assistant Chief, W. H. Withers; Secretary-Treasurer, L. C. Payne; Senior Conductor, R. W. Ryan, Jr.; Conductor, Albert Elkins; Inside Sentinel, J. W. Martin; Outside Sentinel, J. S. May.

At 10:30 p. m. all were invited to the basement of Manly Methodist church where a turkey supper was served to all present, including Rev. C. W. Brady, who seemed to enjoy the company of the railroad people very much as well as the supper.

## Bandit Seizes

(Continued From Page One)

his first incarceration in the penitentiary here, started when he was 14 years old. He was reared in southern Arkansas, he said, and when 14 was convicted of grand larceny and sentenced to the Arkansas reform school, and then drifted to Oklahoma. Since he has participated in numerous bank robberies in Arkansas, Oklahoma, Texas, Missouri and elsewhere. He escaped twice from the Texas penitentiary and his term in Texas was unexpired when he killed Deputy Sheriff Brown in Hot Springs a little over a year ago.

Slaughter denied a killing credited to him in Pennsylvania, but admitted that he had taken part in many robberies.

The desperado, who had been considered the most dangerous in the Arkansas penal institution, made an unsuccessful attempt to escape from the prison farm at Tucker when he killed the trusty guard.

This attempt was only slightly less spectacular than the one last night, and bolder.

Slaughter frequently boasted he would not go to the electric chair. At Hot Springs he and his cell were searched daily for weapons and implements with which he might effect his escape, but none were found. After a jury returned a verdict of life imprisonment, he turned over to the guards, who included a company of national guardsmen, a handful of lucksaws, remarking that if the sentence had been death he would not have stayed in jail over night.

The state guard was called out on another occasion just about a year ago to guard the penitentiary here when a plot Slaughter had instigated for a wholesale delivery was uncovered. On another occasion a conspiracy was alleged to have been discovered which included the bribing of Slaughter of guards at the penitentiary to permit his escape. Slaughter at that time was accredited with having \$200,000 in liberty bonds hidden in Oklahoma. A third plot also is said to have been frustrated.

Governor McRae offered five hundred dollars reward for the return, dead or alive of Slaughter.

## SOCIETY

While they very much regret the leaving of Rev. Chas. H. Oakley, minister of the First Christian church, who will assume the pastorate of the Jackson Boulevard church, Chicago, the first of the coming year, nevertheless the loyal members are doing their utmost to make the few remaining days the happiest of the seven years spent in this city by the popular pastor and his good wife. They selected Friday evening as another one of their climaxes and successfully perpetrated a complete surprise upon Rev. and Mrs. Oakley—one that will ever linger in the lives of the couple, who were not only surprised but most graciously remembered.

At an early hour the members of the number of sixty-four, assembled at the parsonage, taking full possession of the Oakley home. Previous to this, Mr. and Mrs. Oakley, Mr. and Mrs. George W. Edwards, Mr. and Mrs. William Cline, Mrs. Evelyn Evans and Mr. and Mrs. F. W. Sheridan, had assembled at the home of Mrs. Nelle Marlow, president of the class, where they enjoyed a fine chicken dinner, faultless in cooking and served and to which all did ample justice. Due to a previous engagement, it was nearly 10 o'clock when the guests at Mrs. Marlow's home induced Rev. and Mrs. Oakley to return to the parsonage, and it was necessary to feign a false message to accomplish this purpose. But they went, finally, and were warmly over-comed when they entered their own home and found it packed with expectant humanity.

Without delay, Rev. and Mrs. Oakley were invited to the dining room, and there a Christmas tree was unveiled. Hanging upon the branches were crisp new dollar bills to the number of fifty-four, and the tree and its contents were presented to Rev. Oakley. For once in his life the minister was at a loss for words to express his gratitude, but he shortly recovered his poise and the members, together with others who had helped in making the gift possible, were made to feel that he fully appreciated their liberality. Mrs. Oakley was not overlooked in the distribution of gifts, being presented with a set of solid silver spoons, engraved and inscribed with love and gratitude. While they were in the festive humor and surprise attitude, President Nelle Marlow was called to her feet and presented with a set of solid silver knives and forks. While Mrs. Marlow had in a large extent engineered the surprise she in turn felt one of the victims of the Beran plot and while she did her best to thank the class for their very pretty token, it must be said she had better talks in her life. Just she, too, impressed the members of the class with her thankfulness, even though her address was not a rhetorical gem.

Then came the refreshments of delicious cream—then the home-leaving, but everybody happy that they had had a part in adding a little cheer to the lives of these three, whose work in the church and Bible school has stood out so prominently.

At Wednesday night's meeting of Progressive Camp, Royal Neighbors of America, the following officers were re-elected: Orade, Margaret Brodbeck; Receiver, Marie Yarnell; Recorder, Ella Morris; Conductor, Maggie DeAtley; Marshal, Nettie Woods. The following officers were newly elected: Vice Orade, Inez Stewart; Past Orade, Mary Shump; Inside Sentinel, Lulu Lemon; Outside Sentinel, Janie Harrison; Musician, Edith Lawson; Juvenile Director, Modeline Morris; Manager, Clarence Bailey; Physician, Dr. W. D. Schafer.

District Deputy Eliza Kelley of Chillicothe was present and made a talk. Several applications were received.

Mrs. Mary Schult of Third street had as guests yesterday Mrs. John Lynd and son Bob, Mrs. John King, Mrs. Peter Meyers and son Jack, Mrs. Edward Doran and son Joe, Mrs. William King and Mrs. Harley Osborne of Trouton.

Mrs. Nelson Whitaker and little son, Nelson, Jr., of Wheeling, W. Va., are coming next week to spend the holidays with her parents, Mr. and Mrs. C. P. Haldeman, of 4711a avenue.

## Letters From Our Readers

Dear Readers: Please allow me to express my opinion concerning the petition being passed to pardon Roy Chamblin from the electric chair. I for one will never sign it, although I have just as good a heart as anyone, but I consider it in this way. If the sentence be pardon, and the class of people like him who are lurking in almost every hole and corner, waiting for a good chance to take some one's life without showing mercy or giving them a chance to call on the Lord for mercy, what do you suppose their opinions would be as we all realize what this world is coming to? Do you suppose they would fear the law; or would they be still more encouraged to keep on doing the awful deeds that are done? Yes, they will be still braver than before, as now it is hardly safe to go out on the streets because the world is getting so many just such criminals as Roy Chamblin and if the law is not enforced why would this world be like in a few years? When people show him mercy they are only encouraging others that are waiting for a chance so let all who are showing him and all other such criminals so much mercy realize if it was their sister or brother how do you suppose you would feel when you looked upon their dear, sweet face, cold in death, done by a young criminal, who had no mercy on them or for

himself either. What thought do you suppose would enter your mind? So let us all realize the law is just concerning such awful crimes as are being committed.

Mail should be in the Post Office 20 minutes before the mail closes in order to insure dispatch.

We aim to improve the postal service by inducing mail patrons to "Mail Early and Often" thus reducing the evening congestion in the Post Office from 5 to 8 P. M. An hours delay in mailing may result in a days delay in delivery.

Help improve the service by signing your letters at noon and at frequent intervals thereafter; depositing mail frequently during the day; mailing circular matter and relatively unimportant mail in the morning. Early mailing or a "Mail in the Morning" practice will permit speedier and more accurate handling of important mail during the rush periods and reduce the present excessive amount of night work required of post office clerks.

Very respectfully yours,

VALLEE HAROLD, Postmaster.

## Groh Is Happy

(Ironton Register)

Helme Groh said going from Cincinnati to New York was like returning from a foreign country. Just like getting back from Portsmouth after football game. Look like a Fiji islander and lucky to have even a few clothes left.

The reason Wollison was treated so well at Portsmouth was because of the fact that they had no eight hundred dollars about them for the River Citizens to grab off.

### Games This Week

Friday, Dec. 9, Cleaners vs. Strollers.  
Saturday, Dec. 10, Burroughs vs. Tins at 3 p. m.; Seventy Six vs. Monroe Six at 4 p. m.

The race was certainly tightened up in the Buckeye League last night when the Seventy Six jarred the whole standing by taking three straight from the Tins, by the scores of 21-11, 21-18 and 21-20. The Seventy Six showed what they could do when they got a team together. The Tins kept getting better and better, the last game going to "game ball—game ball," but the Seventy Six put the final point over. George Moore and Crumley did the best work for the Seventy Six, while Baker was the shining star of the Tins.

Seventy Six: George Moore captain, James Crumley, Lewis, Peck, Wilcox. Tins: C. R. McClure captain, Edw. Zukars, P. L. Wohler, R. Williams, C. W. Baker, R. C. Holbrook.

The Underwoods have certainly and suddenly caught onto the game and proved it last night when they took three straight from the N. and W., just after the N. and W. had thrashed the Strollers. The N. and W. presented a strong lineup but Stuten by his brilliant playing so inspired his team that they made a clean sweep, the scores being 21-10, 21-16 and 21-17 in their favor.

Underwoods: Wendell Staten captain, Candill, Webb, Millard, Gee, Gabbert.

N. and W.: Arthur Oakes captain, Williams, Gerkin, Sowards, Resinger, Samson.

### Games This Week

Friday, Dec. 9, Trinity Cubs vs. Court House at high school, umpire Prof. Eccles.

The United Brethren continued to win, and the Ministers broke out of the cellar, when they met at the Moose hall last night. The Ministers won the first game at a walk 21-0. Marion Prosch woke up his team and Ernest Schusky got busy with spectacular ball, and the U. B. took the second 21-16. Both games were hard fought, but the third was a humdinger. The Ministers, by playing brilliant ball, finally grabbed it, 21-11.

Ministers: Rev. Chas. Oakley, Wyle Young, W. H. Bishop, Chas. E. Chandler, A. Dyer.

United Brethren: Marion Prosch captain, Albert Reinhardt, Edward Smith, Edward Gordley, Southworth, Ernest Schusky.

The expected happened last night, when the High School Faculty met the Christian Colts and won three straight 21-13, 21-9 and 21-10. The Colts were handicapped by having only five players on a large floor, and put up a very good brand of ball. But the Faculty had out their strongest lineup and that settled it.

High School Faculty: Prof. Eccles captain, Prof. Appel, Coach McComb, Wm. Massie, C. D. Walden, A. K. Wheeler.

Christian Colts: Chester Kerr captain, Orelle Morris, Nate DeLong, J. Pilgor, K. Askins.

### Games This Week

Friday, Dec. 9, Selby Cubs vs. Selby Vets, umpire Graves Williams; Bigelow vs. Selects at Moose hall, umpire J. Breese.

Saturday, Dec. 10, Trinity Vets vs. Selby Leaders at 3 p. m.; Phi Psi vs. Christian Vets at 4 p. m.

The Selby Cubs came within striking distance of their third pennant, when they took three straight from the Trinity Vets by the scores of 21-13, 21-8, 21-12. The Trinity Vets at times put up a good resistance but their great fault was lack of teamwork, and that was the special and strong end of the opponents. Hook and Freeman played the best games for the Cubs, while Haas and Hauck started for the Vets.

N. B. Griffin coached his team from the sidelines and carefully studied their weak points in preparation for the next two weeks' struggle.

Selby Cubs: Roger Selby, Chas. Freeman, Orlis Funglin, Fred Loney, Clyde Groh, Edna Hook.

Trinity Vets: Geo. Anderson captain, Walter Haas, Albert Herms, Carl Hauck, Arthur Horst.

## Yes, But Will He?

CINCINNATI, Dec. 9.—Knockout Brown, Toledo batter, always has been a difficult man for Billy Ryan to box because he is what is called a southpaw boxer.

Ryan has had several fights with Brown and in each had considerable trouble with the Toledo man.

It is because of the trouble Ryan has had with Brown that many followers of the game here are picking Speedy Sparks to take Billy's measure when they clash for 10 rounds at Henck's Theater Monday night.

## Infield Best Ever, Says Manager McGraw

NEW YORK, Dec. 9.—John J. McGraw, manager of the New York Giants, expressed the belief today that Heinie Groh, his \$100,000 infield acquisition, would make the team's infield the greatest he has ever managed.

"Groh will give the team a terrific punch," he declared. "He is a hard, timely and smart hitter and he knows my system and will fit nicely into the machine."

"I will place him on third, of course, for Heinie has no superior anywhere as a third sacker. Frisch will be moved to second, where he belongs and would rather play. He will be the same shining light, too. With Kelly on first and Bancroft at short—well, wait and see."

"Haylings (one of the Giant heroes in the world's series) will be used as utility infielder and we will have a feeling of security with Johnnie Hendy for duty at a moment's notice."

McGraw said there were no other big deals pending now. He was asked if he would consider Eddie Roush as a man to fill George Buras' shoes.

"Cunningham, I think, will fit nicely at centerfield, but the Giants always are ready to buy a player that will help them to win pennants," he said.

The first team is scheduled to play the second team in a benefit game here today.

## Boxers Must Have Good Habits To Climb

(By W. P. M.)

With football giving way to boxing and basketball, these popular pastimes are expected to acquire a new footing in local sporting circles during the drab, gray winter months.

There is a wealth of material in both lines in the city and some exciting matches and games may be arranged if the proper judgment is brought into play. There is no denying the fact that the city has a veritable army of promising young boxers, young men, who rapidly would acquire the art of defense. It is a great game and its exponents are not only winning fame, but are filling up an enviable bank account.

In the vernacular, do you know of any one who is sitting prettier than Lightweight Champion Benny Leonard?

Under 30 he is worth \$200,000 in cold cash and every penny of it was honestly earned by his fists in the squared circle as it were. When he took up the art of self defense he was a poor East Side newsboy earning about \$8 a week, with a mother and father to support. He was shifty on his feet, had a wonderful eye and liked to box. One day he was given a job in one of the preliminaries in a New York boxing card. He put his opponent away in two rounds. His speed electrified the large crowd and then it was that his ring career began. One by one he defeated his opponents, some who outweighed him many pounds.

He studied all angles of the game and had the one requisite, the knack of keeping in condition. A youth of splendid habits, his rise was rapid, almost meteoric. And today Champion Leonard is wealthy, a credit to the game and a shining example for ambitious boxers to aim their mark at.

And so it is with other champions. Jack Dempsey rose to fame because he persisted in making good in the ring. Jess Willard was no bloomer. Johnny Buff is a real champion and Jack Britton, despite his aged and graying temples, is still able to defend his title.

Yes, the ring has alluring possibilities to those pugilistically inclined, providing that you work hard, keep in shape and refrain from indulging in excesses.

Health is most to be desired. Courage is most essential. Brains is valuable. All three, however, are soon rendered void, unless the boxer has good habits.

## When Mr. Herrmann Macked Up

Several minor league pitchers are among the players the Red officials wish to add to the team.

And to get one of them they are very likely to practically give away a pitcher who is a far better prospect than any minor leaguer in the country. Hod Eller is the pitcher meant.

Last summer, because Eller was having a bad season, due to sickness, the Red management tried to give him away, but couldn't get any club to take him on account of his salary.

He was almost unconditionally released a time or two. On the basis of his 1921 record Eller doesn't appear to be worth much to any ball club.

Red officials have found him difficult to get along with mainly because he is not much of a business man where his finances are concerned.

To them he represents a liability rather than an asset. But he's far more likely to become a really great pitcher than any man on the Red staff, with the possible exception of Pete Donohue.

The real interest, however, centered on the work of Butch Lewis who made the highest mark rolled in the city this season, 610. He was a world beater last night, and the fans are pulling for him to keep it up. Had his team mates kept pace with him the Dols would have had no trouble in nosing out their adversaries. Lewis rolled 218, 220 and 178. Some scores!

Russell made high score for the winners, getting 516.
